

MPC X MPC LIVE

BIBLE

BY ANDY AVGousti (MPC-TUTOR)

Table of Contents

000 How to Use this Book11

Which MPCs are compatible with this book?.....	11
Hardware UI Vs Computer UI	11
Recreating the Tutorial Examples.....	11
Reading This Book On Mobile Devices	11
Initial MPC Set Up	11
Release Notes For This Edition.....	12

001 Understanding The MPC Workflow.....13

The MPC in a Nutshell.....	13
The Basic MPC Structure	13
Boot Up Options	14
Your First Project – A Simple Drum Beat.....	16
Setting up an MPC Sequence	17
Sequence ‘Tracks’	21
Understanding DRUM programs	22
Standalone Vs Controller Mode.....	24

002 Building a Simple Drum Kit.....25

DRUM programs & Pads	25
Loading & Assigning Sounds.....	27
Navigating The File Browser	30
Loading sounds Into a Project.....	32
Loading & Assigning Sounds Via the Browser	35
Browser Filters.....	41
Saving Your Project	44
Project Filters.....	48
Freeing Up System Memory (Purging)	48
Auto Save	49
Saving Individual Programs.....	52
Default Project Settings & Project Templates	53
Creating a New Project	56

003 Recording Your First Beat60

Real Time Recording Configuration	60
Metronome Settings	60
Recording Your First Take	62

004 First Look: Grid Edit Mode65

Understanding the Sequencer Grid.....	67
Basic Sequence Editing.....	73

Overdubbing	75
Understanding Sequence Resolution	76
Adding New Events Manually	80
Transposing Pad Events.....	81
Editing Velocity	82
005 Quantising and Swing Essentials	90
Applying Swing	94
Adding Live Feel to a Quantised Beat	96
Moving Events When T.C. is Not 'OFF'	96
Erasing Events	100
ERASE in Real Time	103
Recording Hi Hats With Note Repeat	103
Correcting Mistakes with UNDO	105
Methods For Copying Events	105
Double Length	105
Copying Bars	106
Inserting Blank Bars	108
Copying Events In GRID EDIT	110
Copying Events Via MAIN.....	117
006 Drum Layering	120
What is Drum Layering?	120
Utilising Sample Layers	122
Using Q-Links To Change Parameters	125
Changing the Pitch of a Drum Layer	128
Creating A 'Dragging' Clap Sound	129
Creating Stereo Width	131
Creating a Deeper, Crunchier Kick.....	133
Shaping Your Sounds with the Amp Envelope	135
Adding Vinyl Crackle with Simultaneous Play	139
Varying The Vinyl Crackle with Round Robins	143
007 Drum Kit Essentials	146
Using Mute Groups For Open Hats	146
Tuning the Whole Kit	147
Adding Some Internal Effects	148
The Pad Mixer	152
Setting Custom Pad Colours	159
008 Sampling 101	165
Sampling Audio into the MPC.....	165
Sampling your Sound	170
Sample Edit Mode	172
Waveform Editing	172
Edit Points	174
Adjusting the Start Point.....	176

Zooming In For Accuracy.....	180
Snap to Zero.....	182
Setting the START Point.....	183
Adjusting the End Point	184
The Discard Function	185
Normalizing.....	187
Renaming an Edited File	188
009 Recording a Bass Line With 16 LEVELS	189
Setting Up The Bass Sample	189
Changing the Pitch of your Sample.....	192
Recording a Bass Line with 16 LEVELS	194
Configuring Your Sequence.....	195
LIST EDIT Mode	197
Inserting Events in LIST EDIT	199
Editing Note Events In LIST EDIT	202
Moving Events In LIST EDIT	204
LIST EDIT vs GRID EDIT	205
010 Introduction to Keygroup Programs	207
Creating Keygroup Programs	207
Using Multisamples in a Keygroup program.....	210
Fundamentals of 'key ranges'.....	210
Sourcing & Configuring Your Samples	212
Setting Up Your First Keygroup	214
Adding Keygroups	218
Applying ADSR	222
011 Creating Instrument Melodies & Chords	225
MIDI Sound Sources	225
Finding the Key.....	226
Recording a Piano Rhythm Track.....	227
Chord Progressions.....	229
Creating Custom Progressions.....	230
Methods For Adding Lead & Melody Lines.....	233
Generating Random Notes	233
Using Pitch Quantise	238
Using Humanize For a More Natural Feel.....	241
Pad Perform 'NOTES'	245
Choosing Other Instruments.....	247
Using Software Instruments In 'Controller Mode'	249
Configuring a Plugin Track	250
The Hybrid 3 Plugin Interface	253
Recording a Plugin Instrument	255
Bouncing Plugin Tracks To Audio	256
012 First Look: Audio Tracks	259

Setting Up an Audio Track	259
Converting Any MIDI Track to an Audio Track.....	262
Editing Audio Tracks.....	264
Splitting Audio Tracks	267
Moving Regions.....	270
013 Using The MPC Mixer	273
MPC Mixing Options: An Overview.....	273
Track View Mode	274
Adjusting Levels in Track View	277
The CHANNEL MIXER.....	279
The Program Mixer Channel	283
The MASTERS Channel.....	286
Using The RETURNS.....	289
Dealing With The Submix Omission	293
014 Working with Loops	295
How Do Loops Work?.....	295
Setting Loop Tempo.....	301
Using Loops in a Sequence.....	304
Re-Tuning The Loop.....	304
Time Stretching a Loop.....	306
Using Loops in a DRUM program.....	308
Using the Timestretched Loop.....	312
Looping Instrument Samples.....	314
Setting the Looping Region	316
015 Chopping Drum Breaks Part 1	320
Basic Chopping Using the Extract Function	320
Using the Dedicated CHOP Mode.....	323
Identifying 'Problem' Regions	326
Fixing the Regions - Speed Chopping Workflow	329
Shared Edit Points.....	333
Exporting Your Regions.....	335
016 Chopping Drums Part 2	341
Chopping Down to Individual Hits.....	341
Fixing Clicks & Pops.....	347
Exporting Individual Hits.....	349
Real time Tempo Changes	350
Editing Existing Chop Events	351
Overdubbing Additional Chops	353
Applying a Quantize Template.....	354
017 Building Velocity Sensitive Kits & Sequences	357
Timbre Variation Using Multiple Drum Sounds.....	358

Using Multisampled Drums.....	358
Velocity Switching Pad Layers.....	359
Setting Up the Velocity Switch Ranges	362
Performing Velocity Switches	364
Layer Switching – Creating ‘Cycle Kits’	365
Muting the Open Hat with Mute Targets	367
Velocity Sensitive Timbre Emulations	368
Utilizing The LFO	370
Extending the Open Hats	371
A Practical Kit Set Up	375
Using ‘Humanize’ on Drum Performances.....	375
Generating Random Drum Events	381
Randomly Generating Hi Hat Patterns	383
Individually Generating All Drum Parts	384
018 Dynamic Tempo Manipulation	386
Problems When Changing Sequence Tempo.....	386
Warping Audio	387
Warping in DRUM Programs	389
Patched Phrase Loops	391
Tuning (Pitch Shifting) a Patched Phrase.....	395
Warping in CLIP Programs	396
019 Non Destructive Chopping Techniques	405
Introduction to Non Destructive Chopping.....	405
PROGRAM Chop Mode	410
NDC Over Multiple Layers.....	412
Editing Layers	413
Chopping Using Pad Parameters.....	416
Experimenting With Your Initial Chops	419
Tightening Your Chops	421
Using Warping To Fix ‘Choppiness’	424
Using WARP ‘STRETCH’	425
Finishing Up.....	426
020 Progressive Drum Layering Techniques	427
‘Sculpting’ Together Sample Elements	427
Layering With Pad Parameters.....	432
Applying Filters to Individual Layers.....	435
Converting Your Layers Into Standalone/Portable Samples.....	437
Resampling Your Pad	437
Flatten Pad	438
021 Sound Design Tricks.....	441
Emulating Vintage Sampler ‘Crunch’	441
Increasing Grit While Sampling From Vinyl.....	445
Using Sample Tune to add grit	446

Emulating Scratching With 'Reverse'	447
Experimenting With LFOs.....	451
Emulating Vinyl Crackle.....	455
Wacky Bass.....	455
Bit Crushed Drums	456
Effects to 'Dirty Up' Your Drums	456
Vintage Effects.....	461
Transient Shapers	462
Compression	463
Using EQ in Sound Design	465
Creating a 'Live' Sounding Snare	467
022 Advanced Keygroup Editing	470
Timbre Emulation Within a Keygroup	470
Utilising the Root Note setting	471
'Pseudo' Stereo	473
Filters and Effects.....	475
Utilising the Filter Envelope	478
Applying LFO	482
023 Build A Standalone Synth	484
Creating The Looped Waveform.....	484
Tuning Your Sound	486
Building Your Keygroup Program	489
024 Building Songs & Performances	495
Working on the Basic Song Structure.....	495
Experimenting With Track Mutes.....	496
Creating The Chorus	499
Creating The Intro.....	502
Creating the First Verse.....	504
The Second Verse	505
Live Sweeps With XYFX.....	507
Recording Automation	511
Editing Automation in LIST EDIT	512
Creating the 'Ending'	514
Sequence Experimentation	515
Next Sequence	516
Song Mode	518
025 Adding Vocals & Exporting Your Beats	522
Limitations of Song Mode	522
Converting Your Song into a Sequence.....	522
Recording a Vocal Over Your Song.....	523
Performing a Rough Mix of Your Song	529
Recording Automation With the Q-Links.....	532
Adding Some Scratching	537

Using The Software COPY & PASTE Buttons.....	548
Using the Marquee Tool.....	549
Exporting Your Work.....	553
Exporting Track Stems	555
Fading Out a Song?	557

026 Convert Plugins to Standalone Instruments .558

The 'MPC2VST' Workflow	558
Before You Start	558
Step 1: Load the Project Template	558
Step 2: Choose & Configure Your Plugin Patch	559
Step 3: Configuring Your Sequence	562
Step 4: Check Your Levels	563
Step 5: Bounce Your Track	564
Step 6: Create Your Chops.....	566
Step 7: Import Your Instrument Program Template	568
Step 8: Tidy Sample Names	571
Step 9. Save Your Program	574
Step 10: Reset The Project Template	574
Example 2: Cloning a Bass Patch	574
Tweaking Your Instrument Programs.....	575
Converting To Mono	580
Program Previews	581
The 3 Semitone Template.....	582
The 4 Velocity Template	582
4 Velocity Memory Concerns.....	584
When Should I Multisample Multiple Velocities?	584
Example: Single Velocity With Velocity Sensitive Filtering	585

027 Final Words.....589

Appendix A: Setting Up Your MPC.....590

Which Cables Should I Use?.....	590
MPC Outgoing Audio Connections.....	593
Incoming Audio Connections	594
MIDI Connections	598
Software Installation	602

Appendix B: MPC File Transfers603

File Transfer Restrictions (Internal 16GB Drive)	603
What is an 'Attached Disk'?.....	603
File Transfer Methods	605
Accessing Projects Saved to the Internal Drive.....	607
How Do I Continue Working on a 'Standalone' Project in Controller Mode?	607
How Do I Backup My MPC Projects and Files?	608

Appendix C: MPC Expansion Guide609

What Is an Expansion Pack?.....	609
Creating Your Own Sample Expansion Packs.....	610
Installing an Expansion Pack From an XPN File	614
The Hardware 'Expansion' Browser	616
Installing Expansions in Standalone Mode.....	617
Creating Program Previews.....	619
Using Name Separators (MPC Software).....	621
Using Tags in the Media Browser	624
Demo Sequences	627
Uninstalling/Removing Expansions	629

Appendix D: Essential MPC Resources631

Appendix E: Book Release History.....632

1.3.0.....	632
1.2.1.....	632
1.2.0.....	633
1.1.0.....	634
1.0.0.....	634
