

MPC BIBLE 3

THE DEFINITIVE STEP-BY-STEP COURSE FOR ALL STANDALONE MPCs

BY ANDY AVGOSTI (MPC TUTOR)

CONTENTS

000 HOW TO USE THIS COURSE	24
Which MPCs Are Compatible With This Course?	24
How To Use This Book	26
Conventions Used in This Book	27
Recreating the Tutorial Examples	29
Reading the Book on Mobile Devices	29
Feedback & Support	29
SECTION A	30
MPC CRASH COURSE	
A01 FIRST STEPS: HOOKING UP & HOUSEKEEPING	31
What Is an MPC?	32
Getting Wired	32
Loading a Demo Project	34
Updating Your Firmware	39
Register Your MPC	43
Recommended Preferences Changes	44
A02: TRANSFERRING CONTENT TO YOUR MPC	49
Transferring Files To and From Your MPC	49

Removable Media Options	51
Connecting Your MPC Disk to a Computer	52
Installing Your First MPC Expansions	57
Organising Your MPC Disk	60
Returning to Standalone Mode	63
Installing Your Free Plugins	64
What Are Premium Plugins?	68
Installing Add Ons	69
A03: CORE MPC TERMINOLOGY	72
Starting a New Blank Project	72
Anatomy of a Project	74
Naming & Saving a New Project	77
Core Sequence Settings	85
Understanding 'Sequence Time'	92
Configuring a Track	94
Loading a Drum Kit to a Track	96
Using the Sounds Browser	97
Previewing Drum Kits	104
A04: RECORDING A DRUM BREAK	111
Understanding MIDI	112
Real Time Recording Settings	114
Arming the Track	124
Recording the Drums	125

Creating a Hi Hat Pattern With NOTE REPEAT	125
Adding Kicks & Snares	128
Dealing With Mistakes	129
Overdubbing Individual Events	130
Removing Events With ERASE	132
Viewing MIDI Events in the Arrangement Tab	133
Save Your Work in Progress	134
Loading MIDI Patterns to a Track	134

A05: ADDING INSTRUMENT TRACKS **143**

Returning to a Previous Project	143
Adding a New Track	148
Using Pad Perform	156
Recording The Bass Line	160
Adding A Piano Track	163
Recording Piano Chords	170
Changing The Bass Sound	171
Adding Layers	172
Adding a Melody	177
The Next Steps	183

SECTION B **186** **CORE MPC SKILLS**

B01: BUILDING A DRUM KIT **187**

Loading and Assigning Samples to a Kit	187
--	-----

Loading Samples Into a Project	191
Loading Multiple Sounds to the Pool	200
Setting the Pad Colours	202
Using the Pad Mixer	209
Workshop: Using Q-LINKs	227
Q-LINKS on the MPC XL	236
B02: DRUM KIT EDITING PART 1	238
Editing Sample Layers in MAIN	238
Editing Drum Kits in Track Edit	242
Changing Layer Edit Points	244
Changing Sample Layer Pitch ('Tune')	249
Layering Drum Sounds	250
Layering the Kick	257
Layer Offset	260
Tuning An Entire Pad	263
Setting Up Hi Hat Muting	267
Shaping Pad Volume With the Amp Envelope	269
Finishing Up	277
B03: SEQUENCING WITH GRID VIEW	278
Grid VIEW Overview	278
Using the Grid Tools	286
De-Cluttering The Grid	293
Editing Events in Grid View	295

Deleting & Cutting Events	299
Editing Velocity	304
Modifying Velocities of Multiple Events	308
Applying Swing	312
Using a Natural Feel With Humanise	318
Workshop: Menu Customisation & Shortcuts	323
B04: DRUM KIT EDITING PART 2	330
Adding Drum FX	330
Applying Insert FX to Pads	338
Using FX Racks	347
Band Boost Filtering	352
Advanced Layering With Simultaneous Play	355
Randomisation	359
Velocity Modulation	366
B05: SAMPLING TECHNIQUES	369
Setting Up a Vinyl Sampling Session	370
Sampling External Audio	371
Configuring the MPC Sampler	373
Setting Recording Input Level	377
Configuring Other Recording Options	382
Traditional Vinyl Sampling Workflow	384
The Pad Hold Hack	388
Sample-To-Pad Workflow	390

Viewing The Sample Pool	394
B06: SAMPLE MANIPULATION	400
Working With Raw Samples	400
Setting the End Point	410
Topping & Tailing	413
Creating a Melodic Pad	416
Adjusting the ADSR Envelope	418
Removing Hiss & Noise	421
Using the Pitch Envelope To Add Attack	422
Using TAIL To Add a Smoother Sample End	424
Working With Pitch	426
Adding Drum FX	428
Using the AHDS Envelope	434
Processing a Pad Region	437
Using Delay To Create a Fuller Pad Sound	440
Chaining FX	441
Saving FX Racks	448
Using the LFO	448
Creating a Partial Pad Preset	455
Adding Some Delay	461
Removing Samples From Tracks & Projects	462
A Quick Pad Mix	464
B07: CRAFTING THE INITIAL THEME	465

Using the XL Channel Strips	466
Laying Down Some Ideas	470
Adding Melodic Lines	473
Creating Melodic Lines With 16 Levels	476
Viewing 16 Level MIDI Events	478
Editing Data in LIST EDIT	484
Adding Multiple Modifiers	487
Adding Probability	488
B08: BUILDING A SIMPLE KEYGROUP INSTRUMENT	491
What Is a Keygroup Instrument?	491
Setting the Correct Sample KEY	499
Recording a Bass Line With Pad Perform	501
Extending Sequence Length	505
Adding Variation Via GRID VIEW	507
B09: USING AUDIO TRACKS	513
What Is an Audio Track?	514
Editing Audio Regions	520
Using Warp to Change Audio Speed	528
Adding Back the 'Air'	534
Editing the Second Half	538
Workshop: Disk Streaming Audio Tracks	545
B10: CREATIVE FX & AUTOMATION	549
Using Send FX	549

Using Return Tracks	551
Adding Vocal Cuts	559
Inserting the First Vocal Cut Event	563
Using the Filter To Create a Radio Effect	564
Creating a Cut With MIDI Delay	566
Using Automated FX	569
Adding a Stutter Effect as a Track Insert	572
What Is Automation?	575
Viewing & Editing Audio Track Automation	579
Adding Panning Automation	582
Viewing Track Automation in LIST EDIT	583
B11: SONG BUILDING WITH THE ARRANGER	586
What Is a 'Song'?	586
The 'Linear' Song Building Workflow	588
What Is an Arrangement?	589
Introduction to the Arranger	590
Arranger Overview	593
Track Management in the Arranger	598
Creating the Basic Song Framework With 'Duplicate'	603
Experimenting With Track Mutes	611
Audio Mutes vs Event Mutes	613
'Launch Quantizing' Mutes	615
Grouping Tracks	616
Soloing Tracks	619

Subtractive Arrangement Ideas	621
Defining Song Sections With Locate Points	622
Subtractive Arrangement With ERASE	629
Editing the Verse	641
Creating the Bridge & Solo	643
Adding 'Back' a Drum Fill	646
Workshop: Subtractive Arrangement With Track Mute	649
B12: INSTRUMENTAL ARRANGEMENT TECHNIQUES	656
Adding a New Plugin Track	657
Using the Arpeggiator	660
Recording An Arpeggiated Solo	664
Adding Filter Automation to the Lead	672
Adding A Riser	680
Adding Pan Automation	691
Adding an Ending	695
Extending the Solo	709
Using 16 LEVEL 'Filter'	714
Adding Additional Drums & Variations	716
Using Pad Mutes	716
B13: MIXING & EXPORTING	720
What Exactly Is Mixing?	720
Using The Channel Mixer	721
Adjusting EQ	732

Adding 'Colour' to the Drums	738
Mixing the Bass	742
Adding a Noise Gate to the Vocals	747
Vocal EQ	749
Vocal Compression	750
Adding Vinyl Emulator to the Vocal Cuts	751
Using Flavor As An Alternative	756
Creating a Vocal Submix	757
Mixing the Lead	765
Mixing Options for the 'Melodic' Drum Tracks	768
Automating Pad Volume	770
Adding Mix Buss FX	771
Creating Audio Mixdowns	778
Separating Tracks	781
Exporting Returns	783
Exporting Submixes	785

SECTION C **789**

INTERMEDIATE & ADVANCED TECHNIQUES

C01: WORKING WITH LOOPS	790
What Is a Sample Loop?	790
Creating a Drum Loop From a Break	792
To Discard or Not To Discard? That Is the Question	799
Loop Tempo	802

How to Use Sample Loops in Sequences	806
'Note on' Loops	810
Toggle Loops	818
Manipulating the Tempo of Loops	822
Pros and Cons of Warping	825
Warping vs Time Stretch	826
Changing Tempo By Tuning	829
Adding Tempo Change Events	835
Looping Melodic Samples	839
Adding Loops to Audio Tracks	844
Dealing With Problematic Loops	846
Time Stretching Melodic Loops	849
C02: CHOPPING TECHNIQUES	854
What Is Chopping?	854
Chopping a Melodic Loop	855
Editing Slices	862
Converting Slices	865
Recording With our Slices	871
Adding Some FX	873
Threshold Slicing	876
Extending Chop Length	882
Adjusting Pad Parameters	891
Matching Key	891
Creating a Chopped Melody	893

C03: WORKING WITH HARDWARE SYNTHS	896
Using MIDI With Your MPC	896
Connecting a Hardware Synth Via MIDI	897
Configuring Sequence Tracks For MIDI Hardware	901
Routing Synth Audio to Your MPC	907
Setting Synth Presets From The MPC	912
Recording External Synth Audio	916
Recording Synths With the Sampler	921
MIDI Connections for Multiple Synths	924
Audio Connections for Multiple Synths	928
Recording Multiple Synths Simultaneously	929
A More Flexible Alternative to Audio Tracks	933
Workshop: Working With MIDI Controllers	934
C04: AUTOSAMPLING	956
Autosampling Hardware Synths	956
Initial Set Up	958
Autosampler Settings	961
Editing Auto Sampled Instruments	969
Anatomy of an Autosampled Instrument	971
Adjusting the Amp Envelope	975
Adding Filter Modulation	980
Adding a Second Filter	983
Adding Track FX	988
Saving Your Autosampled Instruments	990

Sustain Looping Samples	994
Alternating Loops	999
Configuring Sustain Loops in an Instrument	1001
Autosampling Internal Plugins?	1004
Workshop: Global vs Independent Acting Envelopes	1004

C05: MULTISAMPLING 'NON MIDI' INSTRUMENTS **1010**

Recording Traditional ('Non-MIDI') Instruments	1010
The Multisampling Process	1011
Choosing the Recording Method	1012
Configuring the SAMPLER	1013
Recording to Audio Tracks	1017
Editing Your Multisampled Recordings	1018
Building the Keygroup Instrument	1023
Editing the Instrument	1031
Adding Controllable Vibrato	1033
Controlling Vibrato With a Q-LINK	1036
Pitchbend Control	1037
LFO Control With a Custom Q-LINK Macro	1040
Using 'LEARN' To Configure Macros	1046
Q-LINK Controllable Instrument FX	1053
Incorporating Round Robins	1059
Adding String Releases	1061
Adding Release Noise Probability	1064

C06: SOUND DESIGN WITH SYNTH OSCILLATORS	1067
Adding a Custom Oscillator Synth	1067
Setting Up a Single Cycle Oscillator	1081
Introduction to the Mod Matrix	1088
Adding More Modulation Points	1096
Adding a Wavetable Layer	1098
Applying PAN Modulation	1107
Using the RAMP Envelope	1114
Modulating With the Aux Envelope	1117
Adding FX to Your Synth	1121
Vector Synthesis With Layer Crossfade	1125
Modulating Via a Source	1135
Modulating a Third 'Oscillator' Layer	1137
Using the Shaper	1139
C07: BUILDING SONG LAYERS	1141
Adding a Vocal	1141
Scales Vs Modes	1146
Fixing Vocal Performances With the Vocal Tuner	1149
Enter The Bass	1152
Adding a Plugin Layer	1156
Sound Browser 'Favourite Presets'	1159
Adding Additional FX to a Plugin Track	1161
C08: CREATING DRUM KITS FROM CHOPS	1165

Region Chopping Breaks	1165
Threshold Chopping Breaks	1168
Converting Your Slices	1175
Sorting & Discarding Chops	1180
Chopping Another Break	1189
Mute Groups Vs Mute Targets	1198
Randomisation	1200
Adding Tail	1203
C09: ADVANCED DRUM KIT SOUND DESIGN	1207
Splicing Samples Together With Audio Tracks	1207
Adding Multi Velocity Articulations	1215
Crossfading Velocity Layers	1223
Combining Velocity Layers & Round Robins With Slice Motion	1228
Tuning Pads Using Pad Scene Q-LINKS	1232
Adding Pad FX	1236
Creating a Snare Flam With 'Articulations'	1241
Adjusting Track FX	1250
Using Factory Partial Presets	1253
Laying Down Some Drums	1262
C10: SONG MODE WORKFLOW	1271
Song Mode Vs Linear Song Building	1271
Building Individual Sequences	1272
Bug Alert: Sequence Change 'Glitch'	1275

Using Slice Motion on Vocal Chops	1275
Planning a Subtractive Arrangement	1287
Erase or Mute?	1290
Using NEXT SEQUENCE for Arrangement Ideas	1292
Creating an Arrangement With Song Mode	1295
Converting Songs	1301
Editing the Linear Arrangement	1304
Manipulating FX With the XY-Pad	1306
Using the XYFX Plugin	1317
Exploding Tracks	1323
Separating Tracks With 'Drum Pads as Stems'	1325
Exploding Tracks in Your Sequence	1327
Using Submixes to Save Resources	1331
Workshop: Modulating Slice Index With the Mod Matrix	1335
DOI CLIPS DEMYSTIFIED PART I	1343
Prerequisites	1344
MPC Project Overview	1347
Introduction to the Clip Matrix	1348
Breaking Down the Clip Matrix	1355
Basic Clip Recording Method	1362
Loading Patterns to a Clip	1370
Modifying Clip Events	1374
Launching Clips	1376
Working With Multiple Tracks	1384

Working With Clip Rows	1388
Launching Clips & Rows From The Hardware	1392
Using the STEP EDIT Buttons (Live 3 & XL Only)	1402
Recording Your Clip Performance to the Arranger	1404
Viewing the Arrangement	1409
Creating Alternative Arrangements	1414
D02 CLIPS DEMYSTIFIED PART 2	1423
Working With the Arrange Row	1425
Converting the Arrange Row To Clips	1430
Building the Matrix	1437
Editing Clip Events in GRID VIEW	1441
Creating Clips From MAIN	1446
Improvising Using Clips With No Fixed Length	1459
Editing Clip Properties in the Clip Editor	1461
Editing the Improvised Clip	1468
Organising Your Matrix	1474
Legato Mode	1479
Combining Toggle & Legato For 'Track Mutes'	1483
Working Between the Arranger and the Matrix	1488
Creating New Individual Clips From an Arrangement	1494
Copying Individual Clips to the Arrangement	1500
Workshop: Using Follow Actions	1505
D03 MPC2 PROJECT MIGRATION GUIDE	1514

Understanding Unified Tracks	1514
Changes to 'Programs'	1517
Simple MPC2 Project Migration Example	1518
Projects With Multiple Sequences	1521
Live Set or 'Multi-Song' Projects	1527
Sequences With the Same Kit on Multiple Tracks	1532
Limitations of MIDI 'Send To' Tracks	1539
Converting 'Send To' Tracks	1540
Project Import Checklist	1544
D04 WORKING WITH TIME SIGNATURES	1546
What Is a Time Signature?	1546
MPC Time Signature Support	1547
Using Multiple Time Signatures in a Single Sequence	1552
Multiple Time Signatures in a Single Sequence	1555
Adjusting Your Recording Method	1556
Working With Eighth Note Meters	1558
Final Thoughts	1563
D05 MAKING BROWSER PREVIEWS	1564
How Do I Make Browser Previews?	1564
Adding a Project Preview	1565
Adding a Track Preview	1566
Creating Previews for Other File Types	1572
E01 PROJECT & SEQUENCING FAQs	1577

How Do I Delete a Sequence?	1577
How Do I Reorder Sequences?	1577
How Do I Perform Over a Muted Track?	1578
After Loading a Project my Samples Are Silent!	1578
Can I Group Pads Together When Exploding a Track?	1579
How Do I Get a Longer-Count in Before Recording?	1580
How Do I Run More Plugin Tracks?	1581
I Forgot To Hit Record, Can I Capture What I Was Playing?	1581
I Can't See my 'Retrospective Record' Events!	1582
How Do I Try Different Kits or Instruments on an Existing Track?	1583
How Do I Completely Erase a Track?	1584
How Do I Erase Specific Events?	1584
How Do I Mix Multiple Tracks or Pads Simultaneously?	1585

E02 TRACK & SAMPLE EDIT FAQs 1586

What Is the 'Classic MPC' Note Layout?	1586
Clip-Style Loop Toggles	1589
How Do I Re-Tune an Entire Pad?	1592
Why Am I Seeing Individual Slices in SAMPLE EDIT > TRIM?	1596
Why Are Some Process Options Not Available in SAMPLE EDIT?	1597
Why Are my Pads Cutting Each Other Out?	1598
How Do I Fine Tune a Plugin?	1599
How Do I Tune a Keygroup Instrument With the Tuner?	1599
Can I Overdub to an Audio Track?	1601

E03 FILE MANAGEMENT FAQS	1603
Gen 1 Models: How Do I Move Files Off the Internal Disk?	1603
Can I Use Disk Streaming on Instruments and Kits?	1604
Can I Save Memory Using MP3s or Other Compressed Files?	1604
How Do I Install an XPN Expansion in Standalone?	1604
Why Don't my Browser 'Folder' Shortcuts Work?	1605
What's the Difference Between an 'XPM' and 'Track' File?	1605
Can I Load MPC3 Projects in MPC Software 2?	1606
What Is Sample Tagging?	1606
Does Purging Delete Samples From my Disk?	1608
How Do I Reduce the Disk Storage Space Used by Projects?	1609
E04 HARDWARE & SYSTEM FAQS	1612
What Does 'Reset Preferences' Actually Do?	1612
So, How Do I 'Factory Reset' my MPC?	1612
How Do I Manually Update my Firmware?	1613
Which Firmware Update Method Is Safest?	1616
What Happens if I Brick my MPC After a Firmware Update?	1617
Can I Downgrade to MPC2?	1618
MPC One Ethernet - How Do I Get Online?	1618
What Is the MPC Software?	1619
What Is Controller Mode?	1620
APPENDIX A: ESSENTIAL SHORTCUTS & PREFERENCES	1622
Button Combination Shortcuts	1622

'Button Hold' Shortcuts	1623
Recommended Browser Shortcuts	1623
Recommended Preferences	1624

APPENDIX B: AUDIO CONNECTION GUIDE **1626**

MPC Audio Connections	1626
Using Audio Interfaces & USB Mixers	1633
Sampling From Turntables	1637
Sampling From Phones & Portable Devices	1638
Recording From Microphones	1641
Recording Guitars	1643

APPENDIX C: ADDITIONAL RESOURCES **1646**

Essential MPC Resources	1646
Samples Used in the Tutorials	1646
Acknowledgements	1647

APPENDIX D: RELEASE HISTORY **1648**
